P R E F A C E

The Census of Population, Households and Dwellings was carried out from the 1st to the 15th of November 2002. The data in the Census forms have been written according to the situation on the 31st October 2002 at 24:00 hrs, namely at midnight between 31st of October and 1st of November 2002.

The Census was carried out according to the Law on Census of Population, Households and Dwellings in the Republic of Macedonia, 2001 ("Official Gazette of the Republic of Macedonia" No 16/2001 and changes and supplements to this Law published in the "Official Gazette of the Republic of Macedonia" No 37/2001, 70/2001 and 43/2002).

The methodology, definitions and classifications for this Census are completely harmonized with the Law on Census and the Recommendations for Censuses on Population Households and Dwellings prepared by the United Nations and the Statistical Service of the European Union - EUROSTAT. This ensures the international comparison of the Census data.

The State Statistical Office has announced the first final results of the Census on Population, Households and Dwellings 2002, on 1st of December 2003. According to the Census Law, the State Statistical Office is obligated to publish all 12 planned publications for the Census 2002, till the end of June 2004.

This is the eight publication (Book VIII, Census 2002) which contains 5 tables with data for the total population present in the country according to certain topics: active population according to the industry and status in employment, persons who are looking for an employment, persons with sources of livelihood, and dependent persons. Except the third table where the data are presented at the level of Republic of Macedonia, the data in the other 4 tables are presented on the municipality level, according to the existing territorial distribution of the Republic of Macedonia.

We expect that, the data presented in this publication and in the following publications will satisfy the most of the users needs for our data. Certainly, for each user who will need another data from the Census, that are not included in the designed publications, the State Statistical Office will make all necessary data processing to satisfy these requests.

METHODOLOGICAL EXPLANATIONS

1. Time of the Census

The Census of Population, Households and Dwellings in the Republic of Macedonia was carried out in the period from 1st to 15th of November 2002. The data in the Census forms have been recorded with the situation on 31st of October 2002 at 24:00 hrs, namely on midnight between 31st of October and 1st of November 2002. This date is Census reference date - "Critical moment of the Census".

2. Method of enumeration

The Census was carried out by an interview from trained authorized persons (enumerators) with recording the data in the printed forms.

- Enumeration form (P-1 form)

for each enumerated person - unit of the Census

- Questionnaire for household and dwelling (P-2 form)

for each enumerated household and dwelling - unit of the Census

- Control form (P - 4 form)

for evidence of all enumerated units

3. Units covered by the Census

The Census of Population, Households and Dwellings, 2002 covered the following units:

- Persons (individuals)

1. Persons who have place of usual residence in the Republic of Macedonia, regardless whether at the time of the Census they are present, at their place of usual residence or elsewhere in the Republic of Macedonia;

2. Foreigners who have a residence permit in the Republic of Macedonia and they are temporarily present in the Republic of Macedonia at least 12 months (one year), but who have a place of usual residence outside of the Republic of Macedonia;

3. Persons who have place of usual residence in the Republic of Macedonia, and at the time of the Census, but for a maximum of 12 months (one year) prior to its conduction, are working abroad, as well as the members of their households;

4. Persons who have place of usual residence in the Republic of Macedonia, and during the time of the Census are working abroad at the diplomatic and consular representative offices of the Republic of Macedonia, the United Nations and its organizations, representative offices or being representatives of

the Chamber of Commerce abroad, business offices abroad, military representatives of the Army of the Republic of Macedonia, and citizens engaged on the bases of international, technical and other kinds of co-operation, education, as well as the members of their households who are staying abroad temporary with the aforesaid persons;

5. Persons who have place of usual residence in the Republic of Macedonia, but are not in possession of the documents pursuant to Article 39, item 1 from the Census Law, if they present the documents stated with Article 39 item 3 from the Census Law;

6. Foreigners with acknowledged status of refugee who at the time of the Census are present in the Republic of Macedonia;

7. Foreigners with acknowledged status of a temporal humanitarian protection that at the time of the Census are present in the Republic of Macedonia;

8. Other persons who at the time of the Census are present on the territory of the Republic of Macedonia, except the persons mentioned in the previous two categories.

PERSONS COVERED WITH THE ABOVEMENTIONED EIGHT CATEGORIES CONSIST THE ENUMERATED POPULATION IN THE REPUBLIC OF MACEDONIA.

PERSONS COVERED WITH THE ABOVEMENTIONED CATEGORIES FROM ONE TO FIVE CONSIST THE TOTAL POPULATION OF THE REPUBLIC OF MACEDONIA.

- **Households** (households of the persons being Census units) and
- **Dwellings** (dwellings in a narrow sense of word, inhabited business premises, improvised living quarters and collective living quarters)

4. Place of enumeration

The place of enumeration is the place of usual residence of the persons - Census units. As a rule, the persons with a place of usual residence in the Republic of Macedonia who at the Census period are absent abroad up to one year, are enumerated abroad, at the diplomatic and consular representative offices. The Census abroad was carried out by the Ministry of Foreign Affairs with co-operation with the diplomatic and consular representatives.

Due to harmonization and adjustment of the Census as statistical operation towards the standards of European and World Statistics, in the Census 2002 are made certain changes that are in relation of defining of the Census units and calculation of the category total population. The enumeration of the Census units was conducted by **place of usual residence**, and persons with a place of usual residence in the Republic of Macedonia working abroad more than 12 months, as well as the members of their households, were not Census units.

These changes do not allow a complete compatibility of the data from this Census with the data from the previous censuses.

5. Place of usual residence

Place of usual residence is the geographic place where the enumerated person usually resides. This may be the same as, or different from the place where the person actually was at the time of the Census, or it may be his/her legal residence (according to the personal document). A person's place of usual residence understands the place where he/she spends most of his/her daily or night rest.

In this publication the data from the Census 2002 are presented in four tables:

1. Total population present in the country: active population who is performing an activity, according to the municipality of work, industry and status in employment;
2. Total population present in the country: persons who are seeking first and re-employment according to educational attainment and age;
3. Total population present in the country: persons with sources of livelihood according to activity, age and sources of livelihood - Total;
4. Total population present in the country: dependent population according to the age and supporter's occupation;
5. Total population present in the country: dependent population in the country according to supporter's industry and the position of the dependent person.

Total population

THE TOTAL POPULATION consists of:

- Persons who have place of usual residence in the Republic of Macedonia, regardless of whether at the time of the Census they are present, at their place of usual residence or elsewhere in the Republic of Macedonia;

- Foreigners who have a residence permit in the Republic of Macedonia and they are temporarily present in the Republic of Macedonia at least 12 months (one year), but who have a place of usual residence outside of the Republic of Macedonia;

- Persons who have place of usual residence in the Republic of Macedonia, who at the time of the Census, and for a maximum of 12 months (one year) prior to its conduction, are working abroad, as well as the members of their households;

- Persons who have place of usual residence in the Republic of Macedonia, and during the time of the Census are working abroad at the diplomatic and consular representative offices of the Republic of Macedonia, the United Nations and its organizations, representative offices or being representatives of the Chamber of Commerce abroad, business offices abroad, military representatives of the Army of the Republic of Macedonia, and citizens engaged on the bases of international, technical and other kinds of co-operation, education, as well as the members of their households who are staying abroad with the aforesaid persons;

- Persons who have place of usual residence in the Republic of Macedonia, but are not in possession of the documents pursuant to Article 39, item 1 from the Population Census Law, if they present the documents stated with Article 39 item 3 from the Population Census Law.

Total population in the country

Total population in the country is the **total population** in the Republic of Macedonia minus the population absent abroad for less than one year working for foreign employer or working independently as well as the members of their households who are staying together with them.

Economic activity

The data of the economic activity refer to the week that precedes the Census.

According to economic activity, the population is grouped on two basic groups:

- active population and
- non - active population

The active population consists of persons at 15 years of age and over:

- **persons who are performing an activity** - persons that perform an activity as employees or independently
- **persons that are not performing an activity** - unemployed persons, persons that are looking for a job, as well as persons that have interrupted their employment because of bankrupt of employer/own enterprise, because of serving in military service, serving a sentence in a prison or because of seasonal character of the work.

An employment, according to the international standards, means each economic activity for salary or other type of compensation in duration of at least one hour in the reference week.

It means that the employment doesn't mean only the formal employment but also the other types of work with which the living resources can be obtained.

Non - active population consists persons that are not employed, that are not looking for a job and persons that have interrupted their employment:

- housewives
- persons that serving in military service
- persons that serving a sentence in a prison
- pupils, students
- permanently incapable to work
- pensioners and
- other

TABLE 1. Total population present in the country: active population who is performing an activity, according to the municipality of work, industry and status in employment

In the Table 1 are presented the data of the total population present in the country: active population who is performing an activity, according to municipality of work, industry and status in employment

Industry

Industry (on business entity) is combination between the sources as equipment, labour, technique of production, informative net or products (goods and services).

The assessment of industry on the business entities has been performing with the National Classification of Industry. The structure of the classification is completely harmonized with the structure and contents of the European Classification of industry NACE Rev.1.

The National Classification of industry has 17 sectors, 31 under sectors, 60 sections, 222 groups, 502 classes and 602 under classes.

In the Table 1 the data of the industry are classified by sectors.

Status in employment

Status in employment refers to the type of explicit or implicit contract for employment with other persons or organizations which the person has got for its work. The basic criteria used in defining of the groups of Classification are the types of economic risk, an element from which depends the intensity of connection between the person and work, and the type of authority of the enterprise (institution) and other employed persons which the employed person has or will have during the employment.

According to status in employment, economically active population is classified on:

- employed
- employer
- own account worker
- contributing family worker

Employed is:

- **an employed person** (full-time or part-time) in enterprises (of public, private, mixed, common and state ownership) and other associations of enterprises, in banks, insurance companies, other financial organizations; agricultural and other cooperatives, state bodies, funds; other organizations, associations, political parties and civil associations;
- **a person working in private shops or agricultural holdings**, but not owning them (including the members of the household) and receiving salary for their work or a recovery in cash or in other kin, regardless of being socially and pension insured or not;
- **a person having established an employment:** in private enterprises and shops; diplomatic, trade and other country representative offices and representatives from abroad in the Republic of Macedonia; in joint enterprises, banks etc. in the Republic of Macedonia, as well as in their representative offices abroad; etc.
- **a person serving in religious organizations;**
- **a person - maids** for whom the regular work in somebody else's houses is basic occupation by which they provide livelihood;
- **a person that is not formally employed**, but who perform seasonal, agricultural and other temporary works by which they provide livelihood.

Employer is:

- **a person managing their own enterprise** (registered as a legal entity);
- **a person who is owner and participate in the management, i.e. administration of enterprise's affairs** and employ one or more workers;
- **a person working in its own shop** (craft, trade, catering or other type);
- **a person who perform free-lance activities:** (lawyer, dentist, film worker, sculptor etc.).

Own account worker is a person who have its own enterprise, business, perform independent activity, and work on an agricultural property with a purpose to obtain income, without employing other persons.

Contributing (unpaid) family worker - is a persons working for no salary in the enterprise, shop or agricultural property owned by other member of the household, without payment or recovery.

TABLE 2. Total population present in the country: persons who are looking for first job and re-employment, according to educational attainment and age

In the Table 2 are presented the data of the total population in the country: persons who are looking for first job and re-employment, according to educational attainment, and age

The highest completed school means the type of school where the person has acquired the highest level of education. No difference should be made between acquiring education at a regular school or a school that replaces the regular one (example: school for education of adults), respectively acquired by exams taken in a regular school or some program of abbreviated education.

The data of age are presented by five years age groups.

TABLE 3. Total population present in the country: persons with sources of livelihood according to activity, age and sources of livelihood - Total

In the Table 3 are presented the data of the total population present in the country: persons with sources of livelihood according to activity, age and sources of livelihood.

The data of the sources of livelihood refer to sources that the persons are ensure during the whole year.

The data of age are presented by five-years age groups.

The data of the total population in the country with sources of livelihood according to activity, age and sources of livelihood by sex are presented in the table 3a for male and Table 3b for female.

TABLE 4. Total population present in the country: dependent population according to the age and supporter's occupation

In the Table 4 are presented the data of the total population present in the country: dependent population according to the age and supporter's occupation

Dependent population

The dependent population consists of persons who do not have their own revenue for sustenance, or who do not have it sufficiently, and who declared for the Census that they are supported by some other persons (parents and other physical or legal persons). This group contains children, pupils, students, housewives, persons incapable for work, and other similar categories.

The dependent population upon other persons in the country consists of persons whose supporters are active persons performing an occupation in the Republic of Macedonia, as well as the persons supported by persons with property based incomes from renting the property or property rights, persons with pension, persons with sickness and maternity allowances, persons with financial help for persons who became unemployed, persons with social benefits, persons with other benefits, persons with spending loans or reduction savings and legal persons.

The dependent population upon persons working abroad consists of persons whose supporters are persons are working for a foreign employer or who are working independently abroad.

Occupation (of the supporter)

The occupation is a summary of works and working duties which are according to their content and type organizational and technological so similar and connected that it can be performed by one performer who has appropriate abilities, titles and crafts.

For active persons who are performing an occupation, the occupation is determined according to the type of work that is conducted by the person, and not according to the education and training which that person has.

An occupation of persons is determined according to the usual duties which the persons have performed at the reference week, and for persons who have been absent from work, an occupation is determined according to works and working duties which are usually performed if they would be at work.

If the persons have performed more types of works at the reference week, an occupation is determined according to the work which is performed for the largest part of working time.

During the data processing, occupations were grouped according to the National Classification of Occupations, which structure is harmonized with the structure of the ISCO 88. The National Classification is consists of:

- 10 main groups
- 28 under groups
- 115 secondary groups
- 403 single groups

In the Table 4 the data are classified according to the main groups of the occupation.
The data of the age are presented by five years age groups.

Table 5. Total population present in the country: dependent population in the country according to supporter's industry and the position of the dependent person

In the Table 5 are presented the data of the total population present in the country: dependent population according to the supporter's industry, sex and the position of the dependent person.

The data of the industry are classified by sectors.
